## About Me

Will be glad to discuss any vacant position on oil/chemical tanker fleet. With good experience of cargo operations on variety of Annex 1 & Annex 2 products like MDI, PMDI, Caustic Soda, Acrylates (Butyl, Methyl), Alcohols (IPA, Isobutanol), Acids (Phosphoric, Sulphuric) & other chemical substances which requires special precautions in preparation & carriage of them. Quite familiar with tank-cleaning operations & passivation of stainless steel tanks. Good experience with operation on FRAMO Hydraulic system (all ships in my carrier were equipped with FRAMO Hydraulic pumps). Sailing worldwide & having experience with different vetting inspections SIRE, CDI & PSC. I've been working a long time in multinational crews. Candidate with a good level of English. Marlins TEST - 96% CES Test - 85% I believe I have the respect and patience, punctuality, confidence, creativity and practical knowledge, with good self initiative, with regards to safety & quality which I believe is essential to be apart of any ships company.
